\$17.95

Laurelwood's Commitment To Sustainability

As part of our commitment to our community, we're doing our part to help the environment. Since our opening in 2001 Laurelwood Public House and Brewery has been committed to sustainability. Brewing Portland's first certified organic beers, all of which are made with Pacific NW organic malt and regionally sourced grown hops. The brewery is certified organic by the Oregon Tilth and all of our water use is offset by credits from the Bonneville Environmental Foundation. The breweries spent grain and yeast are used as animal feed while the spent hops are composted. Our Organic Free Range Red, Organic Pale Ale and Organic Tree Hugger Porter are recognized not only as world class ales but also as environmentally-friendly brews.

As native Pacific Northwesterners, our pubs are committed to using local farmers, purveyors & to support the sustainability and organic movement. We are proud to serve all natural beef, chicken, and pork that are hormone, antibiotic free and are fed natural diets that have no genetically modified grains, or animal by-products. We are proud to serve Painted Hills Beef, DraperValley Farms, Carlton Farms & Reister Farms.

Laurelwood is a proud participant in Portland Composts-turning all our food waste into compost. At Battle Ground we will partner with local farmers to take our food waste thus helping to remove food from the waste stream and helping to significantly reduce the global-warming impact from landfills, as decomposing food waste is a major source of the greenhouse gas methane.

In an effort to conserve water, we only serve water on request.

**Consuming raw or undercooked meats, seafood or eggs may increase your risk of a food borne illness.*
